Disaster Damage:

According to Governor Perry's Texas Rebounds Report November 2008, the 2008 hurricane season will go down in history as having been particularly unkind to Texas. The State was impacted by Hurricanes Ike, Gustav, and Dolly and a significant tropical storm within a 52 day time frame. Hurricane Ike, the most damaging, was enormous, 900 miles wide, and the size of West Virginia. As it rolled across the Gulf of Mexico, Ike grew from a Category 2 storm to a powerful Category 4 that unleashed a 20-foot storm surge that engulfed Galveston and other coastal areas, proving to be the third-most destructive storm to hit the United States. Hurricane Dolly, although less damaging only in absolute terms, had already struck the south Texas coastline as a Category 2 hurricane. It was the most destructive storm to hit the Rio Grande valley in over four decades.

Preliminary unreimbursed damage estimates for the 2008 hurricane season total more than \$29.4 billion. Of this amount, almost \$22.9 billion in non-housing related damages have been identified as well as \$3.4 billion of housing assistance needs. Homes, businesses, and infrastructure were damaged and destroyed. Physical structures may be replaced and rebuilt, but harder to address are the effects the disasters of 2008 have had on the thousands of Texans whose neighborhoods, communities, places of employment and daily lives have been fundamentally altered. The many facets of what makes a place a community, and not just a geographic location, must be repaired, restored, and rebuilt. This requires not only the strength of these communities as they rebuild individually, but the strength of our State to unify these communities as they rebuild Texas.

The Texas Rebounds Report also estimates over \$1.1 billion in losses to the forestry, agricultural, and fishery industries. Over 473,000 acres of timber were affected, agricultural fields were destroyed by salt contamination, and barns and barbed-wire fences were destroyed, thereby affecting the availability and suitability of grazing lands, with an estimated 15,000 head of livestock killed. The report details damages to area crops and recreational and commercial fisheries. Instances where large-scale damage necessitates a massive or multi-faceted recovery process with a long recovery period, such as the devastation of an entire area, the immediate need of safe and sanitary housing on a significant scale, the decimation of an industry, medical facilities, or the destruction of a major public infrastructure system, are scenarios in which the urgent need of such a situation shall be considered.

Texas is making the most of state and federal funds, and has received notice that the U.S. Department of Housing and Urban Development (HUD) will provide \$1,314,990,193 in disaster recovery supplemental funds from the Community Development Block Grant (CDBG) Program as a primary source of funding that is available for public infrastructure, economic development, and housing. The Action Plan for recovery encourages atriangular approach to disaster recovery – public infrastructure, economic development, and housing- with each piece critical to the recovery effort.

Recovery Needs:

Action Plan Amendment #4 contained a detailed budget accounting for \$37,481,416 in DREF funds to specific categories for administration, planning and program activities, for a total allocation of \$3,113,472,856 when added to previously awarded amounts program-wide. The Amendment also stratified the administration and planning dollars by Round (1 and 2) and between housing and non-housing. This was done in part to ensure the 55% housing and 45% non-housing allocations, as stipulated by the Conciliation Agreement, were maintained across two agencies - Texas Department of Housing and Community Affairs (TDHCA) and Texas Department of Rural Affairs (TDRA).

Now that the housing and non-housing programs are under one agency and in order to create a more efficient internal accounting mechanism, Amendment #5 will allow the Disaster Recovery (DR) Program to:

- Combine the administrative dollars into one allocation, eliminating the distinction between housing and non-housing and between Rounds 1 and 2 (see Tables 1 and 2).
- Combine the planning dollars into one allocation, eliminating the distinction between housing and non-housing and between Rounds 1 and 2.

- Allow for the utilization of administration and planning dollars to supplement existing allocations in accordance with GLO policies.
 - Allow for transfer of program dollars between Rounds 1 and 2, maintaining the distinction between housing and non-housing, for budgeting and planning purposes.
 - Also, in order to facilitate the creation of an economic development and other programs which may generate program income locally, the GLO is affirming that program income is governed by the waiver in the Federal Register, Volume 74, No. 29, February 13, 2009 and may be retained by the grantees for economic development and other activities within program guidelines.
 - Because the Action Plan appears to restrict eligible grantees to cities and counties, Amendment #5 will allow public universities and other non-profit entities, as identified in the MODs, to be grantees for non-housing and housing activities.
- Finally, in order to maintain maximum flexibility for the use of funds and to allow for innovation and efficiency in the construction of affordable rental units, Amendment #5 will allow for construction of either single or multi-family rental units as long as the affordable rental requirement for each region is maintained. The Amendment will also allow the GLO to waive the \$10,000,000 cap for multifamily project-based applications as well as the \$20,000,000 cap per Developer/Applicant for applications related to public housing.

Overall Progress Narrative:

QPR Q1 2016: 01/01/2016 – 03/31/2016

Key Items:

1) Total disbursed to date = 72% of the total award amount. The GLO completed a total of 71 activities in DRGR during the quarter, 15 activities were canceled, and 8 new activities were underway.

2) Current quarter Expenditures = \$102,674,141.89 as follows:

- Admin = \$3,317,755.09
- Planning = \$2,621,160.46
- Non-Housing = \$36,370,674.20
- Housing = \$60,186,610.20
- Program Income = \$177,941.94 for LRGVDC & Galveston County

The Total Funds Expended during the quarter in the published QPR reflect \$102,352,169.68 based on the difference between the expensed amounts in the Micro Strategy Financial Report 07c. This report total does not include adjustments approved after the quarter end that reconciled disbursements. The Total Funds Expended in this report period should reflect \$102,674,141.89.

3) DRGR Grant Administration:

- Ongoing progress: Efforts to update prior beneficiary data were underway through the DRGR system, including validation and acceptance for addresses reported and elimination of duplications are ongoing within the "Maintain Addresses" link.

- DRGR Issues encountered:

- o A variance between the DRGR System's "Maintain Addresses" link in the QPR Module and DRGR MicroStrategy Rept03 exists, which has been officially escalated through the HUD Exchange AAQ. Duplicated addresses appear within the PerfRept03 although duplicated addresses have been removed within DRGR System's 'Maintain Addresses' link in the QPR Module. Resolution is pending.

- o A system error was reported to HUD Exchange AAQ noting that revised vouchers were not partially updated in the DRGR system upon approval. Resolution is pending.

4) HOUSING ACTIVITIES:

- The Homeowner Assistance Program (HAP) = setups in the GLO system below:

- o Round 1 = 3,963

- o Reconstruction – 2,493

- o Rehabilitation – 1,066

- o Demolition Only – 115

- o Down Payment Assistance Only – 287

- o Acquisition Only - 2

- o Round 2 = 3,576

- o Reconstruction – 2,765

- o Rehabilitation - 235

- o Demolition Only - 536

- The Homeowner Opportunity Program (HOP)(Round 2 Only)

- o 301 setups in the GLO system to date

- Slum and Blight (S/B)

- o Round 1 = 115 (All Closed)

- o Round 2 = 526 (383 Closed & 143 Active)

- Rapid Housing Recovery Pilot Program (RHRPP)(Round 2 Only)

- o H-GAC – 20

- o LRGVDC - 20

- Non-Rental Program –

- o Round 1 = 99% construction complete

- o Round 2 = 96% construction complete

- Rental Program –

- o Round 1 = 99% construction complete

- o Round 2 = 31% construction complete

- Affordable Rental Housing = the GLO has committed to spend a minimum of \$348,708,959.87; to date the GLO has spent \$219,495,986 and is on track to exceed its minimum target.

5) INFRASTRUCTURE ACTIVITIES:

- 25 Contractors had 71 DRGR activities completed

- 346,856 total persons served of which 143,835 were LMI

- 8 new DRGR activities were set up in DRGR as underway during Q1 2016

- Economic Development – The GLO administered a total of 4 ED programs, 3 of which are complete. DETCOG is the last ED project that is active and business applications are currently under review.

- Efforts are under way to de-obligate unutilized funds from closed out contracts and re-allocate in order

to carry out more eligible projects.

Activity Description:

City of Galveston Round 1 Housing Program for URS Planning scope related line items (Tasks 27 and 28) which was to prepare a Recovery Plan to return the Round 1 Housing Program to a state of Normalized Activities. URS will prepare a Takeover Manual to provide guidance and best Practice recommendations to the State for future actions of this nature. The Takeover Manual will incorporate strategies that worked and those that did not and additional actions required than those outlined in the Recovery Plan prepared in 2012. Finally, the Takeover Manual will incorporate warning signs for the State or monitoring entity about potential Program problems and where intervention may be needed based on early indicators.

Activity Description:

Grantee shall make improvements to Resaca De La Guerra Culvert Crossings by replacing pavement, sidewalks, box culverts, curb and gutter, and other drainage facility components. Construction shall take place along Morningside Road, VICC, and East Eagle Drive.

Grantee shall also make improvements to the Four Corners Detention Pond by excavation approximately 145,000 cubic yards of material and installing approximately 2,00 l.f. of sidewalks, 50 l.f. of 48 inch RCP, constructing 1,050 s.f. of headwall spillway to increase water storage and reduce flooding.

Grantee shall also purchase and install two (2) generators with automatic transfer switches and associated appurtenances to ensure continuous operation of the drainage pump station.

Alternative Proposed Accomplishments: 20,000 square feet of Concrete

Alternative Proposed Accomplishments: 20,000 cubic yards of compacted fill material

DREF: Category C Portion Residential: Brownsville has 2565 residential properties and 92 non-residential property as defined by parcel data provided by appraisal district and application information. The residential factor was divided by the total of residential and non-residential for a ratio of .9654 residential benefit. The term "residential properties," for this purpose, may include parcels, acres, and/or structures as available through the data sources utilized for mapping purposes. Portion Improvement: Portion Improvement: The data gathered from applications and contract performance statements identified grossly undersized and/or nonexistent drainage facilities. Based upon project descriptions and engineering estimates, the increase in capacity above and beyond baseline reconstruction requirements was greater than 80 percent. It was determined that the percent of improvement corresponding to base reconstruction was 20 percent and the risk-reducing expansion was 80 percent. Combined Ratio: .88

Location Description:

Resaca De La Guerra Culvert Project - along Morningside Road, VICC, and East Eagle Drive - Brownsville, Texas
Four Corners Detention Pond Project - on Owens Road approximately 0.3 miles south of Boca Chica Blvd, Brownsville, Texas

Activity Description:

Contractor shall purchase and install valley gutters at each of seven (7) locations and perform site work associated with construction. Construction shall take place at the following locations: Avenida Del Sur intersection with Sargent Servantes Street -West Side and East Side; Avenida del Sur intersection with Homero Del Leon Street - West Side and East Side; Avenida del Sur intersection with Calle Juanita Street - West Side and East Side; and Avenida del Sur intersection with Calle Angelita Street - West Side. Improvements will increase capacity and reduce future flooding. In addition, the City will construct two (2) flood control gates with concrete boxes connected to the existing pipeline and located along existing drainage ditches. Construction shall take place at various locations within the City and within the north and south drainage channels. DREF: Category C Portion Residential: Edcouch has 348 residential properties and 18 non-residential property as defined by USGS National Land Cover Database 2001 and application information. The residential factor was divided by the total of residential and non-residential for a ratio of .9510 residential benefit. The term "residential properties," for this purpose, may include parcels, acres, and/or structures as available through the data sources utilized for mapping purposes. Portion Improvement: The data gathered from applications and contract performance statements identified grossly undersized and/or nonexistent drainage facilities. Based upon project descriptions and engineering estimates, the increase in capacity above and beyond baseline reconstruction requirements was greater than 80 percent. It was determined that the percent of improvement corresponding to base reconstruction was 20 percent and the risk-reducing expansion was 80 percent. Combined Ratio: .88

Location Description:

Construction to install 7 Valley Gutters shall take place at various locations along Avenida Del Sur in the City of

Edcouch, Texas. Also, construction shall take place to construct 2 flood control gates at various locations within the City and within north and south drainage channels.

Contractor shall perform approximately twenty-five thousand cubic yards (25,000 c.y.) of excavation and clear and remove debris on approximately twelve acres (12 ac.) of watershed. Contractor shall place seventy-two thousand six hundred square yards (72,600 s.y.) of seeding and erosion control. Contractor shall also remove and replace eleven (11) crossing culverts which span six hundred twenty linear feet (620 lf.) and perform site work associated with the construction. Construction shall take place along Cherry Creek from north of State Highway 105 to Gaylor Creek, in the Cherry Creek watershed in north Liberty County. Improvements will address a failure to function caused by Hurricane Ike.

DREF: Category C Portion Residential - Liberty County has 843 residential properties and 22 non-residential property as defined by USGS National Land Cover Database 2001 and application information. The residential factor was divided by the total of residential and non-residential for a ratio of .9746 residential benefit. The term "residential properties," for this purpose, may include parcels, acres, and/or structures as available through the data sources utilized for mapping purposes. Portion Improvement: The data gathered from applications and contract performance statements identified grossly undersized and/or nonexistent drainage facilities. Based upon project descriptions and engineering estimates, the increase in capacity above and beyond baseline reconstruction requirements was greater than 80 percent. It was determined that the percent of improvement corresponding to base reconstruction was 20 percent and the risk-reducing expansion was 80 percent. Combined Ratio: .89

Activity Description:

Contractor shall purchase and install approximately two thousand linear feet (2,000 l.f.) of twenty four-inch to thirty-six inch (24 in. - 36 in.) reinforced concrete pipe, remove and replace culvert at Tom Gill Road with two (2) thirty-six inch (36 in.) RCP, and two (2) safety end treatments, excavate five thousand eight hundred twenty (5,820 c.y.) of material to allow for ditch re-grading, and place two thousand linear feet (2,000 l.f.) of trench safety protection during construction. Construction shall take place within the Barcelona Heights Subdivision within a fifteen-foot (15 ft.) drainage easement within the Hidalgo County Irrigation District No. 6 Canal Right-of-Way. The storm sewer system will flow eastward towards Tom Gill Road where it will cross under the roadway and discharge onto an existing private drainage ditch that will be re-graded, and dedicated to the City of Peñitas via a perpetual lease. These improvements will increase the capacity of the storm sewer and reduce flooding. Improvements will address a failure to function caused by Hurricane Dolly.

DREF: Category C Portion Residential: Penitas has 133 residential properties and 1 non-residential property as defined by USGS National Land Cover Database 2001 and application information. The residential factor was divided by the total of residential and non-residential for a ratio of .9925 residential benefit. The term "residential properties," for this purpose, may include parcels, acres, and/or structures as available through the data sources utilized for mapping purposes. Portion Improvement: The data gathered from applications and contract performance statements identified grossly undersized and/or nonexistent drainage facilities. Based upon project descriptions and engineering estimates, the increase in capacity above and beyond baseline reconstruction requirements was 100 percent. Combined Ratio: 1.0

Activity Description:

This project was deemed ineligible by HUD and funds have been repaid to HUD. This Contractor shall construct an approximately one thousand five hundred square feet (1,500 s.f.) building addition. Work will include construction of a reinforced concrete slab foundation; construction of Americans with Disabilities Act (ADA) compliant kitchen and shower facilities; installation of plumbing, electrical, telecommunication, heating, ventilating, air conditioning, and fire detection and suppression systems; and interior finish out. The building addition to this facility will secure a last resort public emergency shelter, as well as a fully functional fire protection facility including adequate fire protection equipment storage and staging facility for the city. Contractor shall perform all necessary site work associated with construction including utilities, drainage, and grading. Construction shall take place at 747 Tiki Drive. Improvements are to address a failure to function caused by Hurricane Ike.

Location Description:

Activity deemed ineligible at 747 Tiki Drive

Activity Progress Narrative:

During the reporting period a negative expended amount was reported to recognize the Texas GLO's repayment of expenditure to HUD for the project. The Tiki Island fire protection facilities project was completed in a previous quarter and determined ineligible. Activity Description:

Contractor shall construct a water well (500-600 gpm), a reverse osmosis treatment facility with a capacity of one hundred seventy two to three hundred forty-four gallons per minute (172-344 gpm) and install a (200 kW) diesel-fueled generator with a raised platform and associated appurtenances to allow operation of this facility in the event of power failure at the Galveston County FWSD #6 located at 401 Jones Lake Road. Installation of the water well and treatment facility will ensure uninterrupted water service. Improvements are to address a failure to function and damage caused by Hurricane Ike.

Location Description:

Galveston County Fresh Water Supply District (FWSD)#6 storage facility located at 401 Jones Lake Road in the Village of Tiki Island, Texas.

Activity Progress Narrative:

During the reporting period a negative expended amount was reported. A reconciliation of draws on the activity along with prior period adjustments and expenditures were made to determine this modification. The Tiki Island water facilities project was completed in a previous quarter. DRGR close out will occur upon final expenditures, completion of any pending adjustments, and verification of final metrics.

Construction shall take place near the south end of Washington Street, southwest of Raymondville, Texas. Improvements will address a failure to function caused by Hurricane Dolly.

DREF: Category C Portion Residential: Willacy County has 1,946 residential properties and 98 non-residential property as defined by USGS National Land Cover Database 2001 and application information. The residential factor was divided by the total of residential and non-residential for a ratio of .9521 residential benefit. The term "residential properties," for this purpose, may include parcels, acres, and/or structures as available through the data sources utilized for mapping purposes. Portion Improvement: The data gathered from applications and contract performance statements identified grossly undersized and/or nonexistent drainage facilities. Based upon project descriptions and engineering estimates, the increase in capacity above and beyond baseline reconstruction requirements was greater than 80 percent. It was determined that the percent of improvement corresponding to base reconstruction was 20 percent and the risk-reducing expansion was 80 percent. Combined Ratio: .88

Activity Description:

Contractor shall purchase and install a permanently affixed 275kW deisel generator with automatic transfer switche, concrete foundation, wiring, cables, connections and associated electrical devices at the La Sara Community Emergency Shelter located at the intersection of 6th Street and Jones Street. Installation of the backup generator will ensure continuous operation of the cafeteria and high school gym as a designated emergency shelter. The La Sara Community Emergency Shelter is utilized as a shelter during emergency situations and as a public school cafeteria during non-emergency times. These activities are the result of the shelter's failure to function due to a loss of power resulting from Hurricane Dolly.

Location Description:

Construction shall take place at the Lasara Independent School District Cafeteria located at the southeast corner of the intersection of Jones Street and 6th Street, in Lasara, Texas.

Activity Progress Narrative:

The Willacy County neighborhood facilities project was completed in a previous quarter. DRGR close out will occur upon final expenditures, completion of any pending adjustments, and verification of final metrics.

DREF: Category C Portion Residential: Pasadena has 1085 residential properties and 155 non-residential property as defined by parcel data provided by appraisal district and application information. The residential factor was divided by the total of residential and non-residential for a ratio of .8750 residential benefit. The term "residential properties," for this purpose, may include parcels, acres, and/or structures as available through the data sources utilized for mapping purposes. Portion Improvement: The data gathered from applications and contract performance statements identified grossly undersized and/or nonexistent drainage facilities. Based upon project descriptions and engineering estimates, the increase in capacity above and beyond baseline reconstruction requirements was greater than 80 percent. It was determined that the percent of improvement corresponding to base reconstruction was 20 percent and the risk-reducing expansion was 80 percent. Combined Ratio: .84

Activity Description:

Contractor shall remove and replace approximately four thousand two hundred linear feet (4,200 l.f.) of channel lining with concrete headwalls at road crossings and SET's at the Southmore storm infall including right of way preparation. Contractor shall purchase and install approximately twenty-five linear feet (25 l.f.) of forty-eight inch (48 in.) reinforced concrete pipe and re-grade approximately four thousand eight hundred cubic yards (4,800 c.y.) of ditch. Construction shall take place at the drainage channel along Finrock from Harris Street to Southmore Avenue and at the drainage channel on Mobile Ditch from Harris Street to Vermillion Ditch. Improvements will address a failure to function caused by Hurricane Ike.

DREF: Category C Portion Residential: Pasadena has 11,856 residential properties and 970 non-residential property as defined by parcel data provided by appraisal district and application information. The residential factor was divided by the total of residential and non-residential for a ratio of .9244 residential benefit. The term "residential properties," for this purpose, may include parcels, acres, and/or structures as available through the data sources utilized for mapping purposes. Portion Improvement: The data gathered from applications and contract performance statements identified grossly undersized and/or nonexistent drainage facilities. Based upon project descriptions and engineering estimates, the increase in capacity above and beyond baseline reconstruction requirements was greater than 80 percent. It was determined that the percent of improvement corresponding to base reconstruction was 20 percent and the risk-reducing expansion was 80 percent. Combined Ratio: .86

Location Description:

Construction shall take place at the drainage channel along Finrock from Harris Street to Southmore Avenue and at the drainage channel on Mobile Ditch from Harris Street to Vermillion Ditch.

Activity Progress Narrative:

The Pasadena Dike and Dam flood and drainage facilities project was completed in a previous quarter. DRGR close out will occur upon final expenditures, completion of any pending adjustments, and verification of final metrics.

Construction shall take place in the Needmore Division Channel from the confluence of the north and south forks of Taylor's Bayou south to the Gulf Intracoastal Waterway, located approximately 2.5 miles east of Boondocks Road and 1.5 miles north of Highway 73. Improvements are to address a failure to function caused by Hurricane Ike.

DREF:

Contractor shall relocate a 36 inch natural gas pipeline located in the Needmore Diversion Channel in the Taylor Bayou Watershed approximately 1,200 linear feet, and construct 13 miles of channel from the confluence of the North and South forks of Taylor's Bayou South to the Gulf Intracoastal Waterway. The new system will improve drainage and reduce flooding throughout the Taylor and Mayhaw Bayou watersheds and remove approximately 51,000 acres from the 100 year flood plain. Improvements are to address a failure to function caused by Hurricane Ike.

Location Description:

Construction shall take place in the Needmore Division Channel from the confluence of the north and south forks of Taylor's Bayou south to the Gulf Intracoastal Waterway, located approximately 2.5 miles east of Boondocks Road and 1.5 miles north of Highway 73.

Activity Progress Narrative:

The Jefferson County Drainage District 6 flood and drainage facilities projects was completed in a previous quarter. DRGR close out is to occur upon final expenditures, completion of any pending adjustments, and verification of final metrics.

Activity Description:

Contractor shall purchase and install three (3) one thousand five hundred kilowatt (1,500 kW) permanently-affixed, diesel-fueled generators with automatic transfer switches and associated appurtenances. At two (2) locations, Contractor shall also construct a concrete pad for generator mounting and perform site work associated with construction. At one location, Contractor shall install generator on existing concrete pad and perform associated site work. Construction shall take place at the Baytown Area Water Treatment Plant located at 7419 Thompson Road. Improvements will address a failure to function caused by Hurricane Ike.

Location Description:

Construction shall take place at three locations at the Baytown Area Water Treatment Plant located at 7419 Thompson Road.

Activity Progress Narrative:

During the reporting period a negative expended amount was reported. A reconciliation of draws on the activity along with prior period adjustments and expenditures were made to determine this modification. The Baytown water facilities projects was completed in a previous quarter. DRGR close out is to occur upon final expenditures, completion of any pending adjustments, and verification of final metrics.

Activity Description:

Contractor shall construct breakwaters/jetties to prevent sediment from entering Pine Gully Restoration Project. Installation of the breakwaters/jetties will reduce flooding by maintaining the open cross section of the gully and preventing water from backing up upstream of the mouth of the gully.

Location Description:

Construction shall take place at Pine Gully bounded by Pine Gully Road, Seabrook Cemetery, Pine Gully Park, Galveston Bay, Surf Oaks Subdivision, and Todville Road in Seabrook, Texas

Activity Progress Narrative:

During the reporting period a negative expended amount was reported. A reconciliation of draws on the activity along with prior period adjustments and expenditures were made to determine this modification. The Seabrook flood and drainage facilities project was completed in a previous quarter. DRGR close out will occur upon final expenditures, completion of any pending adjustments, and verification of final metrics.

Activity Description:

Southeast portion of the City of Beaumont and is composed of three major sub areas: Moore Street, South Park, and Threadneedle watersheds. The project will install additional storm sewer boxes and pipes and connect them to the existing system. These interconnects will allow for the re-direction of flow to the Neches River and relieve the current outfall, and allow for the interconnection of the three main sub areas. The existing asphalt roads and ditches will be reconstructed to a concrete road with curb and gutter, including a new storm sewer system. The existing roadway, approximately twenty feet (20 ft.) wide and will be widened to approximately twenty-seven feet (27 ft.). Contractor shall install new a storm sewer system, including concrete box culverts at major road crossings, headwalls, storm sewer pipe, manholes, inlets, adjust manholes and inlets, cement stabilized backfill, and perform excavation. Roadway items include dense graded hot mix asphalt for roadway transitions, concrete paving six inches in depth with curb and gutter, cement stabilized backfill, driveways (repair), sidewalks, removing stabilized base and asphalt, signing, and pavement markings. Other miscellaneous items include preparing right of way, removing concrete and concrete structures, sodding for erosion control, excavation for structures, railroad crossing repair, utility repair, upgrade and relocation, and performing site work associated with construction. Construction shall take place in southeast Beaumont (South Park Drainage Area), including the following roadway corridors: on Kenneth Avenue from Threadneedle Street to Brockman Street, on Brockman Street from Kenneth Avenue to Reed Street, on Reed Street from E. Threadneedle Street to E. Lavaca Street, on Grandberry Street from E. Lavaca Street to E. Woodrow Street, on Adams Street from Reed Street to MLK Parkway, on MLK Parkway from Adams Street to E. Contractor shall purchase and install one (1) permanently-affixed generator, ranging in size from one hundred fifty to two hundred fifty kilowatts (150 kW – 250 kW), with transfer switch, pads for generator and fuel tank mounting, fuel tank with enclosure, electrical modifications, other associated appurtenances, and perform site work associated with construction. Construction shall take place at the water treatment plant located at 5634 State Highway 149, in Beckville, Texas. Installation of the backup generator will ensure continuous operation of the water treatment plant and uninterrupted water service. Additionally, Contractor shall purchase and install one (1) permanently-affixed generator, thirty-five kilowatts (35 kW) with transfer switch, pads for generator and fuel tank mounting, fuel tank with enclosure, electrical modifications, other associated appurtenances, and perform site work associated with construction. Construction shall take place at the elevated storage tank at the water treatment plant located at intersection of Goode and Daniels Street in Beckville, Texas. Installation of the backup generator will ensure continuous operation of the water treatment plant and uninterrupted water service. Improvements are to address a failure to function caused by Hurricane Ike.

Activity Description:

Contractor shall perform channel improvements to the Coon Marsh Gully to include ditch cleaning and re-grading (widening); new culverts with wing walls at Bonura Road in Country Wood; wing walls and concrete lining of the sides and bottom of the Pinewood Boulevard bridge over Coon Marsh Gulley; two (2) pedestrian creek crossings across Coon Marsh Gulley (replacement of existing crossings per design requirements), provide other associated appurtenances; and perform site work associated with construction. In preparation of Compensatory Mitigation for required Section 404 and pre-application meeting with USACE, it was determined that a Compensatory Mitigation Plan would not be feasible due to excessive cost which is estimated to be \$2,000,000 for Coon Marsh Gully alone; therefore, in agreement with USACE recommendation the project will be scoped as an Avoidance and Minimization Plan. Grantee shall also acquire any additional easements or rights-of-way necessary for the proposed Coon Marsh Gully Improvements. Proposed improvements will ensure proper conveyance of storm water, significantly increase the capacity of the channel, and reduce flooding. Improvements shall address direct damage and a failure to function caused by Hurricane Ike. (DREF Eligibility: Category C - Individual Mitigation Measure)

Location Description:

Construction shall take place on Coon Marsh Gulley from Highway 105 to Bonura Road, on Coon Marsh Gulley from Bonura Road to Pinewood Boulevard, and on Coon Marsh Gulley at the Diversion Channel from Pinewood Blvd to Little Pine Island Bayou in Hardin County, Texas.

Activity Description:

Contractor shall demolish an existing two-hundred fifty thousand gallon (250,000 gal) ground storage tank and replace with one (1) new one million gallon (1,000,000 gal) ground storage tank (GST), two (2) eight hundred gallon per minute (800 gpm) booster pumps and purchase and install one (1) two hundred to three hundred kilowatt (200 - 300 kW) permanently-affixed generator with transfer switch, foundations, and metal building to house the generator. In addition, Contractor shall rehabilitate the existing onsite water well (consisting of video inspection, acid cleaning of the screens, and testing of motors for reliability) and perform other site work associated with construction. The proposed improvements will address the failure of the affected system by increasing available water supply and storage, and maintaining and stabilizing the systems pressure. Construction shall take place at the Pansy Road Water Plant located at 2700 Pansy Road in Pasadena, Texas. Improvements shall address a failure to function caused by Hurricane Ike.

Contractor shall construct a 48-inch storm sewer outfall trunkline along Thomas Avenue, install reinforced concrete pipe and approximately 20 storm sewer inlets, reconstruct roadway as needed and perform site work associated with construction. The Contractor shall also install a pumping station including pumps ranging in size from one hundred thousand to one hundred twenty thousand gallons per minute (100,000 gpm to 120,000 gpm), force main, motor control center, and pump station headworks. In addition, Contractor shall install dual feed power source and other associated appurtenances. Proposed improvements will allow the pump station to pump water from the Bayou and detention basin, thus significantly reduce flooding in the Bayou, and providing additional storage capacity and relief for the neighborhood drainage system. Proposed improvements shall take place at the following locations in Pasadena, Texas: at the Pump Station located approximately one hundred linear feet (100 LF) to the North of Highway 225, within the drainage easement of Cotton Patch Bayou, and along Thomas Avenue (Trunk Line/Storm Sewer) from West of Alvin Street on southside of Thomas Avenue to east of James Street on south side of Thomas Avenue. The study will include a "Plan of Action" to address the needs of the County and various local entities, including, but not limited to water and drainage districts. The plan for infrastructure will include flood control; transportation (bridges, roads, and rail); water supply and water quality; and power and communications. The identification of need and funding of infrastructure is closely linked to economic development. Economic development has a significant impact on local government's ability to generate revenue from property, inventory, and sales taxes. The plan will include identifying a strategy for economic development. The plan will not duplicate existing studies but will include a summary of current action to allow this document to be comprehensive in nature.

Activity Description:

Contractor shall perform ditch clearing, channel excavation and widening, slope stabilization, and install drainage structures along Pine Gully. Construction shall take place on Pine Gully from approximately 1,600 linear feet West of the Todville Road Bridge/Pine Gully intersection to the Seabrook Fire Training Facility at Red Bluff Road in Seabrook, Texas. Contractor shall replace the Baywood Bridge with a larger and higher structure, install headwall structures, and raise and repair pavement to eliminate the trapping of residents by high flows in the tributary and high tidal flooding from Pine Gully. Construction shall take place on Pine Gully at Baywood Drive Bridge 540 linear feet East of Todville Road in Seabrook, Texas. Contractor shall address channel constrictions at the bay outfall by securing a property in the floodway of the channel that previously supported a private residence. The Surface of the property will be graded lower to improve the conveyance capacity. In addition, maintenance access will be provided by a wooden bridge crossing the gully at the northwest end of the property. Proposed improvements will protect the watershed from replacement of obstructions to flow and reduce flooding. Activity Description:

The City of Galveston will provide down-payment assistance to homeowners of low to moderate income within the city whose primary residence was destroyed by Hurricane Ike and who will be purchasing replacement housing within the city.

Down payment assistance will not exceed \$5,000 per unit. The proposed number of households to receive benefit is 20.

Homebuyer Assistance Program

The City of Galveston established the Homebuyer Assistance Program to offer a housing incentive to encourage housing resettlement in the City. The re-population initiative will promote resettlement in particular geographic areas. The program will assist both individuals and families in purchasing a home on the island. The program will provide direct financial assistance for closing costs and pre-paid items and gap financing.

All properties purchased must meet Housing Quality Standards (HQS) and local health, building, and safety codes, including ensuring that properties built before 1978 are visually inspected for compliance with federal lead-based paint requirements and that all applicable sales contracts include the seller's disclosure as required by federal law.

Activity Description:

Planning activity canceled from Housing Project and moved to Planning Project in DRGR. GrantWorks shall perform, or cause to be performed at the direction of the GLO, in assistance to the Subrecipient, planning services necessary to fulfil all statutory requirements and to facilitate activities for disaster relief, recovery, restoration, and economic revitalization in areas affected by Hurricanes Dolly or Ike under the CDBG-DR that are subject of the rental housing projects authorized by the GLO under the Subrecipients mixed financing structure and report related to Subrecipients Housing Tax Credit financing.

Location Description:

Planning activity moved to Planning Project

Activity Progress Narrative:

During the reporting period a negative expended amount was reported to move expenditures to the Planning Project activity. A reconciliation of draws on the activity along with prior period adjustments and expenditures were made to determine this modification. The negative expended amount was offset to the Planning Project activity 72121039-Planning through draw adjustments. The activity was canceled under the Housing Project following the approval of the draw adjustments.

Activity Description:

The Sub-recipient will provide a rental housing program to include rehabilitation, reconstruction and/or new construction activities for two hundred eighty-two (282) housing units in two developments at a not-to-exceed total amount of forty-five million six hundred fifty-three thousand three hundred thirty-three dollars (\$45,653,333), and each development will meet the LMI National Objective of fifty-one percent (51%) of the units being leased to low and moderate income tenants. Project Delivery and Administration costs shall not exceed five million four hundred ninety-four thousand four hundred dollars (\$5,494,400) or twelve percent (12%) of the total grant award. All of the units in these two housing communities will contain comparable amenities and the unit floor plans and construction materials will be indistinguishable amongst the various income levels. The Cedar Terrace and Magnolia Homes developments must produce tenant integration through a combination of public housing/Section 8 and market rate units. The total units in each development shall be no more than forty-nine percent (49%) market rate and fifty-one percent (51%) public housing/Section 8 units. The units will be interspersed so that no grouping of income types occurs and the public housing/Section 8 units will "float" throughout the developments.

Location Description:

Two developments located at the Cedar Terrace Apartments site, which consists of 5.85 acres and will include one hundred twenty-two (122) units, and the second development is the Magnolia Homes Apartments site which also consists of 5.85 acres and will include one hundred sixty (160) units in the City of Galveston.
